

17th Annual Members Conference

June 2-3, 2022

Overview

ACES' Annual Members Conference provides information relevant to its Members and Customers in the form of presentations from subject matter experts. The purpose of the conference is to provide attendees the opportunity to learn about market trends, factors affecting the industry and the associated risks, and tools they can use to enhance their operations.

After attending the Members Conference, Participants will be able to:

- Apply what you learn to help your organization ensure reliability of the grid
- Apply what you learn to help your organization plan its future resource mix and implement new technologies, such as battery storage
- Apply what you learn to help your organization create a more diverse, equitable, and inclusive culture
- Better understand the impact the current economy has on your organization and the industry
- Better understand impact of climate goals on the bulk power system
- Better understand challenges and opportunities occurring within structured markets
- Better understand how certain third-party services can help your organization adapt to current changes and plan for the future
- Better understand current trends in the power and natural gas markets and the impact on your operations
